ELECTROSTEEL

SOCIALSTEEL

The #ElectrosteelGroup is proud to have contributed to the Chandrayaan 2 success story, by supplying DI Pipes to ISRO a few years back. Jai Hind!
We also supplied DI pipes to bring relief to millions of Chennai residents affected by the severe water crisis. Your company also supplied DI pipes to India's first desalination plant in Minjur, Tamil Nadu. And to a project in the ruggedly beautiful Susa Valley, Italy. Finally, we made lesser-privileged lives a little better, in Assam and Andhra Pradesh. Because we practice #technologythatcares.

THE HINDU

Work to lay pipelines for transporting water by train to Chennai begins
