

ELECTROSTEEL

# SOCIALSTEEL

May was a busy month! We hosted a webinar attended by top water experts including representatives from Central govt. ministries; we conducted online training sessions on a host of topics including Digital Empowerment (yes, we gave away e-certificates too!); and we welcomed the Prime Minister's clarion call for #AtmaNirbharBharat by reminding ourselves of the pioneering work we did - and continue to - by taking Made In India DI Pipes worldwide. Now, as Work From Home eases into Unlock 1.0, we are ready and raring to go - as always!

P.S. A belated shout-out to the Electrosteel team at AfWA ICE 2020 in Uganda, Africa.
