Additional measures /investment proposals for environmental protection including abatement of pollution, prevention of pollution:-

1) One moveable type water sprinkler will be installed on top of the Ground hopper for dust control.

The plant is always sincerely striving for improving of working atmosphere with innovative approaches to maintain sustainable development in the surrounding areas.

Part-I

Any other particular for improving the quality of the environment:-

- a) Observation of “**National Safety Day**” & “**World Environment Day**” on 4th March & 5th June respectively to create awareness among the staff, local community & also planted 1470 saplings in new land area during this financial year (2022-23) to abate pollution.
- b) Organize regular in house training/counseling programme on “House Keeping, Safety & environment” to improve awareness level among all employees.
