Eastern Regional Office,
A/3, Chandrasekharpur,
Bhubaneswar – 751023.

Ref: EC Letter No.-J-11011/02/2016-IA-II(I), dated 12.04.2017.

Sub: Half Yearly Compliance Report of the conditions of Environmental Clearance issued by Ministry of - Environment & Forest, New Delhi for Proposed installation of the Ferro Alloy Plant through setting up of 1X6MVA & 1x9MVA submerged Are Furnace for production of Ferro Manganese (38,156TPA) or Silico Manganese (27,109 TPA) or Ferro Silicon (10,421 TPA) by M/s- Electrosteel Castings Ltd, Located at Haldia, Dist –Purba Medinipur, West Bengal for the Period October-20 to March-21.

#### Respected Sir,

This has reference to the Environmental Clearance letter no-J-11011/02/2016-IA-II(I), dated 12.04.2017 issued by Ministry of Environment, Forest & Climate Change, New Delhi.

We enclose herewith Compliance Report for the Period of October-2020 to March-2021 for your perusal.

This is for your information.

Thanking you,
Yours faithfully,

For ELECTROSTEEL CASTINGS LIMITED,

(G. C. Mahto) AVP - HW

Enclo: a) EC Compliance Report-(Annexure-1).

- b) Report of Stack Monitoring (Annexure-2).
- c) Report of AAQM (Annexure-3).
- d) Report of Ambient Noise (Annexure-4).
- e) Report of Neurological & Periodical Health check-up (Annexure-5).

## ENVIRONMENT CLEARANCE SIX MONTHLY COMPLIANCE REPORT (FROM OCTOBER-2020 TO MARCH-2021)

Project Name :- Proposed installation of the Ferro Alloy Plant through setting up of 1 x 6 MVA & 1 x 9 MVA submerged Arc Furnace for production of Ferro Manganese (38,156 TPA) or Silico Manganese (27,109 TPA) or Ferro Silicon (10,421 TPA) by M/s. Electrosteel Castings Ltd., located at Haldia, Dist. Purba Medinipur, West Bengal. Environment Clearance: J-11011/02/2016-IA-II (I), dated 12.04.2017

L	CONDITION OF ENVIRONMENTAL CLEARANCE	STATUS OF COMPLIANCE
0.	CONDITION OF ELECTRIC	
AR	T A- Specific Conditions	
	The project proponent should install 24x7 air monitoring devices to monitor air emission, as provided by CPCB and submit report to Ministry and its Regional Office.	OCEMS has been installed in two stacks one is connected with Furnace stack & another one is connected with raw material handling stack. OCEMS connectivity of Furnace bag filter stack with CPCB server through M/s- Forb Marshal has been completed. Now real time online data is available in CPCB web portal.
i.	Bag filters to be installed to reduce the emission of Particulate Matter (PM). PM emission should not exceed 100 mg/m3. Gaseous emission levels including secondary fugitive emissions from all the sources shall be controlled within the permissible limits which have been most recently prescribed by the Ministry and regularly monitored. Guidelines/Code of Practice issued by the CPCB	Two bag filters have been installed. One is attached with the 9MVA Submerged Electric Arc Furnace (SEAF) & another with raw material handling system. Stack monitoring reports of CPCB approved 3 <sup>rd</sup> party is attached in "Annexure-2" & the results are within the limit.
	should also be followed.  Pre-placement medical examination and periodical medical	Is being followed and records maintained.
iii.	examination of the workers engaged in the project shall be carried out and records maintained. For the purpose, schedule of health examination of the workers should be	
	drawn and followed accordingly.  Neurological Evaluation of workers exposed to Manganese	Is being followed and records maintained.
iv.	should be monitored annually and the report should be submitted to the Ministry of Environment, Forest and	(Annexure-5)
v.	Climate Change and its Regional Office.  Measures shall be taken to reduce PM levels in the ambient air. Stack of adequate height & diameter with continuous stack monitoring facilities for all the stacks should be provided. In addition, sufficient air pollution control devices viz. bag house, bag filters etc. should be provided.	Following measures have been taken to reduce PM level in the ambient air.  i) Two Stationary sprinklers & one mobile water sprinkler have been deployed for dust suppression.  ii) Installed two stacks of adequate height & diameter with continuous stack monitoring facility in both stack. All stacks are connected with suitable PC device (Bag filter).
vi	Dust extraction system comprising of pulse jet type bag filter, centrifugal fan and motor, duct work including suction hoods, dust supports, stack, duct hopper, rotary ai lock valves etc. should be installed to control the primary and secondary emission.	Adequate dust extraction system comprising of required equipment has been installed to

/ii.	Water sprinkling arrangements as well as dry fog system to control fugitive emission shall put up. Water sprinkling should be carried out at the raw material stockyard to control fugitive dust emissions.	Stationary water sprinklers, mobile water sprinkler & Dry Fog System have been installed to control fugitive emissions.  One Mobile water sprinkler has been provided to carry out water sprinkling in the raw material yard to control fugitive emission.
viii.	Efforts should be made to use maximum water from the rain water harvesting sources .If needed ,capacity of the reservoir shall be enhanced to meet the maximum water requirement .Only balance water requirement shall be met from others .Use of air cooled condensers shall be explored and closed circuit cooling system shall be provided to reduce water consumption. Water requirement should be modified accordingly.	One rain water harvesting tank has been constructed to use rain water.  Close circuit cooling system has been provided to reduce water consumption.
ix.	10-15 m wide green belt should be developed all along the boundary of the plant and in all 33% of the area should be developed green by planting native and broad leaved species in consultation with local DFO and local communities as per the CPCB guidelines. The entire plantation work should be completed in 3 years.	Green belt development activity is continuing in consultation with Forest Range Office at Balughata under Nandakumar forest range office and local communities. Green Belt cover is being maintained continuously throughout the year within the project site as well as outside the plant premises along the HDA road.
x.	All the Ferro alloy slag shall be used in the preparation of building materials.	All Ferro Alloy Slags are being used for road making & construction purpose only.
xi.	The Company shall submit within three months their policy towards Corporate Environment Responsibility which shall inter-alia address i) Standard operating process/procedure to being into focus any infringement/deviation/violation of environmental or forest norms/conditions,	Standard operating procedure will be followed as stated in EMP.
	ii) Hierarchical system or Administrative order of the Company to deal with environmental issues and ensuring compliance to the environmental clearance conditions and  iii) System of reporting of non-compliance/violation environmental norms to the Board of Directors of the company and/or stakeholders or shareholders.	All the environmental issues are communicated to the top management in monthly MIS meeting and also to the Board or Directors quarterly through a systematic structured format by Head – Environment.

		Co. appeal / Landad averta 10
cii.	An amount equal to Rs. 125 Lakhs, which is 2.5% of the total project cost (Rs. 50 Crores) shall be earmarked towards the Enterprise Social Commitment based on issues raised during the Public Hearing and needs of local people. Item-wise detailed plan with time bound action plan would be prepared as indicated by the project proponent and this plan shall be implemented. Action taken report in this regard shall be submitted to the Ministry's Regional Office.	(1) An amount of Rs. 25500 /- handed over to 10 BPL students in the month of March-21. This will be continued on quarterly basis (Total disburse amount is Rs. 0.532/- Lacs for this financial period).  (2) In this period we have expense Rs. 2.324/- lakhs for renovation of Kashberia prathamik bidyalay in Kashberia village and shibramnagar primary school at village Shibramnagar.  (Total disburse amount is Rs. 4.102/- Lacs for this financial period).  (3) Two tube-well has been set up for providing drinking water facility at Anantapur and Kashberia village respectively & expenses incurred is Rs. 3.55/- lakhs.  Total expenses - Till date we have expense Rs. 14.68/- lakhs in this financial period (2020-2021).
xiii.	The project proponent shall provide for solar light system for all common areas, street lights, villages, parking around	Six Solar street lights have been installed within project site with all necessary arrangement.
xiv.	project area and maintain the same regularly.  The project proponent shall fully provide for LED lights in their offices and residential areas.	LED light has been installed throughout the plant.
xv.	Provision shall be made for the housing of construction labour within the site with all necessary infrastructure and facilities such as fuel for cooking, mobile toilets, mobile STP, Safe drinking water, medical health care, crèche etc. The housing may be in the form of temporary structures to be removed after the completion of the project.	All facilities & infrastructures has been provided as per the requirement.
DAI	RT B – General Conditions	
i.	The project authorities must strictly adhere to the stipulations made by the West Bengal Pollution Control Board and the State Government.	Following all stipulated guideline of WBPCB & the state Government.
ii.	No further expansion or modifications in the plant shall be carried out without prior approval of the Ministry of Environment Forest and Climate Change (MoEF&CC).	We will not do any further expansion or modification in the plant without prior approval of MoEF&CC.
iii.	At least four ambient air quality monitoring stations should be established in the downward direction as well as where maximum ground level concentration of PM10, PM2.5, SO2, NOx are anticipated in consultation with the SPCB.  Data on ambient air quality and stack emission shall be regularly submitted to this Ministry including its Regional Office at Bhubaneswar and the SPCB/CPCB once in six month.	wind direction in consultation with SPCB. AAQ monitoring has been started from March 2019 on wards & the results are within limit value. Month wise summary report of AAQ is being attached for the said period in (Annexure-3).
iv.	Industrial waste water shall be properly collected treated so as to conform to the standards prescribed under GSR 422 (E) dated 19th May, 1993 and 31st December, 1993 or as amended from time to time. The treated waste water shall be utilized for plantation purpose.	Industrial waste water is being collected inland pond through surface drain & utilized it for plantation & dust suppression purpose.

v. •	The overall noise levels in and around the plant area shall be kept well within the standards (85 dbA) by providing noise control measures including acoustic hoods ,silencers , enclosures etc. on all sources of noise generation .The ambient noise levels should conform to the standards prescribed under EPA Rules ,1989 viz.75 db A (day time) and 70 dbA (night time).	In house Ambient noise monitoring report as well as approve 3 <sup>rd</sup> party report is being attached in Annexure -4. Results are within limit.
vi.	Occupational health surveillance of the worker shall be done on a regular basis and records maintained as per the Factories Act	Occupational Health Surveillance programme is being done as per Factory Rules & records is being maintained as per Factories Act.
vii.	The company shall develop rain water harvesting structure to harvest the rain water for utilization in the lean season besides recharging the ground water table.	We have constructed a pond inside the plant. All rain water are collected in the pond through surface drain and it was utilize for dust suppression, water sprinkling & gardening purpose.
viii.	The project proponent shall also comply with all the environmental protection measures and safeguards recommended in the EIA /EMP report .Further the company must undertake socio —economic development activities in the surrounding village like community development programme ,educational programme ,drinking water supply and health care etc.	Complying as per EIA/EMP report.
ix.	Requisite funds shall be earmarked towards capital cost and recurring cost /annum for environment pollution control measures to implement the conditions stipulated by the Ministry Of Environment, Forest and Climate Change (MoEFCC) as well as the State Government .An implementation schedule for implementing all the conditions stipulated herein shall be submitted to the Regional Office of the Ministry at Bhubaneswar. The funds	Complied as per documents already submitted on 10.01.2018.
x.	so provide shall not be diverted for any other purpose.  A copy of clearance letter shall be sent by the proponent to concerned Panchayats, Zila Prishad / Municipal Corporation, Urban Local Body and the local NGO, if any, from whom suggestions / representations, if any were received while processing the proposal. The clearance letter shall also be put on the web site of the Company by the proponent.	Copy of clearance letter had already been Submitted to concern authority and it is also put on the web site of the company.
xi.	The project proponent shall upload the status of compliance of the stipulated environment clearance conditions, including results of monitored data on their website and shall update the same periodically. It shall simultaneously be sent to the Regional Officer of the MoEF&CC at Bhubaneswar. The respective Zonal Office of CPCB and the SPCB. The criteria pollutant levels namely; PM10, SO2, NOx (ambient levels as well as stack emissions) or critical sectoral parameters indicated for the projects shall be monitored and displayed at a convenient location near the main gate of the company in the public domain.	Is being done.

ii.	reports on the status of the compliance of the stipulated environmental conditions including results of monitored data (both in hard copies as well as by e-mail) to the Regional Officer of MoEF&CC, the respective Zonal Office of CPCB and the SPCB .The Regional Office of this Ministry at Bhubaneswar /CPCB/SPCB shall monitor the stipulated	Environmental statement report for the
xiii.	The environmental statement for each financial year ending 31st March in Form- V as is mandated to be submitted by the project proponent to the concerned State Pollution Control Board as prescribed under the Environmental (Protection) Rules, 1986, as amended subsequently, shall also be put on the website of the company along with the status of compliance of environmental conditions and shall also be sent to the respective Regional Office of the MoEF&CC at	financial year 2020- 2021 will be submitted in Form-V before 30/09/2021. This will also be uploaded in company's website & will send to all concerned as per EC conditions.
xiv.	Bhubaneswar by e-mail.  The Project Proponent shall inform the public that the project has been accorded environmental clearance by the Ministry and copies of the clearance letter are available with the SPCB and may also be seen at Website of the Ministry of Environment, Forests and climate Change (MoEF&CC) AT http:/envfor.nic.in. This shall be advertised within seven days from the date of issue of the clearance in the region of which one shall be in the vernacular language of the locality concerned and a copy of the same should be	Already complied. Copy of which Submitted to your office on 10.01.2018.
XV.	forwarded to the Regional Office at Brubaneswar.	Project to be done out of internal accrual.  1) Received NOC from WBPCB valid up to 31.08.2024.  2) Received Consent to Operate from WBPCB on 30.05.19 & valid up to 31.03.2024.
	iii) The date of commencing the land development work.	Started on 02.04.2018.
