ELECTROSTEEL HELPS DEVELOP A NEW INTERNATIONAL STANDARD

BSI Standards Publication

BS ISO 21052. Restrained joint systems for ductile iron pipelines. Calculation rules for lengths to be restrained

HAPPENINGS

Diwali at BW BW took the opportunity to literally "light" up the Plant, most spectacularly.

Rain Water Harvesting EW had started work on rainwater harvesting a year ago. The efforts are now reaping fruit.

Kartik Puja The residents of Bansberia celebrated Kartik Puja. [Click here](#) ▶

MONTHLY HIGHLIGHTS

Development of a new International Standard

Recently a new standard - ISO 21052 has got the final approval. This international standard was developed by the WG21 working group, under the leadership of **Cyrille Hahang**, Managing Director of Electrosteel Europe. A proud moment for us.

SPL sets another milestone

Congratulations to the SPL team for achieving the highest ever Hot Metal and Net Sinter Production, surpassing all previous records.
