ELECTROSTEEL

BROADCAST

QUARTERLY SPECIAL EDITION

JULY - AUGUST - SEPTEMBER 2026

IN THE SPOTLIGHT - MOMENTS THAT SHAPE OUR JOURNEY

CELEBRATING THE SPIRIT OF FREEDOM: ONE ELECTROSTEEL, ONE INDIA

Every great nation is built on the hard work and strength of its people, and this Independence Day, the tricolour came alive across Electrosteel. The celebration began beautifully as employees painted their hands in the colours of the national flag; a simple, proud gesture of respect for our country. From there, the Har Ghar Tiranga spirit spread rapidly across every location. The energy peaked with a disciplined march past by our security personnel, followed by flag hoisting and lively cultural performances by the teams. At Electrosteel, we are proud to celebrate this unity as we continue to build the pipelines that carry life and help power the nation forward.

JAL SADHANA - HONOURING OUR COMMITMENT TO WATER SUSTAINABILITY

ELECTROSTEEL SHOWCASES DYNAMIC ECOSYSTEM AT IFAT INDIA 2026

IFAT India 2026, one of the country's premier platforms for water and wastewater infrastructure marked a powerful milestone for Electrosteel. The company's complete product portfolio took centre stage, serving as a focal point for meaningful technical discussions, fresh industry perspectives, and global collaborations. Beyond showcasing engineering solutions, the booth hosted unique, interactive activity zones designed to engage visitors in defining critical water security challenges and co-creating a sustainable future. As the event concluded, Electrosteel successfully translated three days of dynamic industry exchange into lasting connections and actionable possibilities that will continue to move global water infrastructure forward.

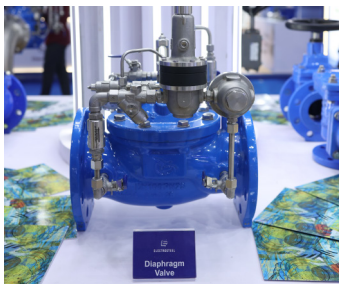

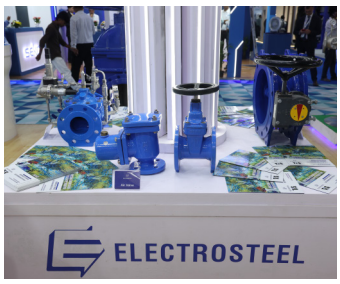

ELECTROSTEEL SHOWCASES INNOVATION AT 6TH WATER TECH SUMMIT 2026

Electrosteel brought its engineering expertise to the forefront at 6th CII Water Tech Summit 2026. The company's advanced range of DI Pipes & Fittings, Restrained Joint Pipes, and Valves took centre stage, drawing great interest from industry experts. More than just showcasing products, the event was a powerful platform for exchanging ideas and exploring new possibilities. By driving these critical conversations, Electrosteel continues to spark the real collaborations needed to build a smarter, more resilient, and water-secure tomorrow.

PLANET FIRST - SOWING SEEDS OF A GREENER TOMORROW

ELECTROSTEEL MARKS A STRONG PRESENCE AT IFAT MUNICH 2026

Electrosteel Castings Limited attended IFAT Munich 2026, the world's leading trade fair for environmental technologies. The event served as a powerful platform for connecting with global industry leaders, strengthening international partnerships, and exploring new innovations in sustainable water infrastructure. By engaging in deep technical dialogues and sharing knowledge at this prestigious global forum, every conversation brought us closer to our ultimate goal of engineering a resilient and water-secure tomorrow.

ELECTROSTEEL PARTICIPATED AT 25TH NATIONAL CONVENTION ON ENVIRONMENTAL ENGINEERING

Electrosteel participated in the 25th National Convention on Environmental Engineering and Seminar on "Resilient Water & Waste Management" at Agartala, Tripura. The event was organized by the Institution of Public Health Engineers (IPHE) India, Tripura Centre, jointly with the state PWD (DWS) and Tripura Jal Board. By engaging at this key forum, Electrosteel reinforced its commitment to supporting advanced technology and sharing expertise to help build resilient water networks across the nation.

HEARTS IN ACTION - SMALL ACTS, BIG IMPACT

ELECTROSTEEL EXTENDS IMMEDIATE RELIEF TO FLOOD-AFFECTED COMMUNITIES

Demonstrating our core value of community care, the Electrosteel family provided vital aid to flood-affected villages. The Electrosteel Ladies Club personally distributed dry food, clothing, candles, and matches to families in Pitambar Chawk. Concurrently, an official relief team rushed to Kashberia and Shibramnagar in Haldia, West Bengal, India to distribute dry food, emergency tarpaulins, mosquito nets, and Zeoline water purifiers. These coordinated efforts highlight Electrosteel's commitment to standing with our neighbors, delivering essential lifelines to ensure health and safety during crises.

ELECTROSTEEL SUPPORTS GOVT. PRIMARY SCHOOL WITH ESSENTIAL INFRASTRUCTURE

Following a community request, Electrosteel stepped forward to support the Government Primary School in Gumpuchinthala (Gumpli), Tamil Nadu, India. The company provided tailored infrastructure to the school, including chairs, tables, and almirahs designed specifically for young children. By ensuring the students now have proper seating and tables to sit comfortably and take notes, this initiative directly creates a better, more supportive learning environment that helps local children thrive in their daily education.

ELECTROSTEEL FRANCE BACKS THERAPEUTIC EQUINE PROGRAM AT "LES PARONS"

Electrosteel France partnered with the Lions Club to support the "Les Parons" institute, an organization dedicated to helping individuals with disabilities through equine therapy. This partnership provides children and young adults with specialized horse-assisted therapy sessions designed to build confidence and well-being. This collaboration highlights Electrosteel's global commitment to social inclusion, health, and caring for communities everywhere.

WE, THE ELECTROSTEEL FAMILY - WHERE PEOPLE MAKE LEGACIES

ELECTROSTEEL LEADERS SHARE INSIGHTS AT BIGMINT INDIA FERROUS WEEK 2026

Electrosteel marked a powerful presence at BigMint India Ferrous Week 2026. Mrs. Radha Kejriwal Agarwal, Whole-Time Director, Electrosteel Castings Limited joined an important panel on how women are reshaping leadership across India's infrastructure ecosystem through inclusion and diversity. Meanwhile, Mr. Uddhav Kejriwal, Whole-Time Director, Electrosteel Castings Limited shared strategic insights on India's met coke market, focusing on competitiveness and industrial self-reliance. Their participation reflects Electrosteel's core belief that industry progress is built through active dialogue, expertise, and leading from the front.

ELECTROSTEEL JOINS GLOBAL SUPPLY CHAIN DIALOGUES AT THE CII CONCLAVE

Electrosteel participated in the 13th CII Manufacturing Conclave East 2026 to discuss the future of the industrial sector. Mr. Pankaj Poddar, Chief Marketing Officer & Executive Director, Electrosteel Castings Limited, joined global leaders as a key panelist in a strategic session on Global Supply Chains. The dialogue focused on building stronger, more competitive, and resilient manufacturing ecosystems through sustainability and inclusivity.

QUIZ COMPETITION MARKS SEVEN DECADES OF ELECTROSTEEL'S LEGACY

To celebrate Electrosteel's birthday, an engaging corporate quiz competition was hosted across multiple units. The event gave employees a fun, interactive opportunity to test their knowledge and revisit the company's seven-decade history of industrial achievements. Winners took home prizes, but the real win was how the enthusiastic participation succeeded in connecting the entire team with foundational company facts.
The Electrosteel Quiz 2.0 beautifully blended education with corporate pride, inspiring everyone to carry Electrosteel's shared heritage forward.

STRATEGIC BRILLIANCE: MR. PRANAB KUMAR PATRA WINS CHESS CHAMPIONSHIP

Electrosteel Srikalahasthi Works proudly celebrated Mr. Pranab Kumar Patra, Senior Engineer – DIP, for his remarkable chess achievements. A seasoned player from Odisha with a FIDE rating of 1573, Pranab has won multiple state-level titles and represented the state at the KIIT International Chess Festival. He recently added to his accolades by clinching the Winner's title at the Electrosteel SW Chess Tournament 2026. His victory highlights focus and discipline, proving that excellence at work and passion beyond it go hand in hand.

CORPORATE TRAINING PROGRAMS EMPOWER THE ELECTROSTEEL WORKFORCE

Electrosteel recently upgraded its workforce capabilities through a series of specialized health, technology, and safety training modules across its operational units. The initiative featured a critical cardiovascular prevention session by senior cardiologist Dr. Tarun Praharaj for employees alongside statutory POSH compliance training led by Ms. Sima Dey at the Khardah and Haldia works, West Bengal, India. Simultaneously, the company advanced its digital transition with targeted corporate AI workshops, with Mr. Atanu Ghosh from IIM Kolkata for Microsoft Copilot systems and CA Devarshi Bhuwalka to train employees on productivity applications. Reflecting the programme's impact, participants returned with feedback scores of up to 9.32/10 across all modules.

PRAGAT SPOTLIGHT - INSPIRING LEADERSHIP

MEET MR. MANOJ DAS

Mr. Manoj Das, Joint General Manager - Business Development at the Electrosteel Head Office, showcases Electrosteel's leadership spirit through his 20-year journey. A resilient and collaborative professional, his growth reached a new milestone through the PRAGATI initiative, which completely reshaped his approach to management.

A FIRESIDE CHAT WITH AN EMERGING LEADER

Q: One skill you'd love to master?
Ans. Strategic Thinking: Seeing the bigger picture and turning ideas into meaningful, long-term impact.

Q: If your team had a superpower, what would it be?
Ans. Turning challenges into opportunities.

Q: What's one word your colleagues would probably use to describe you?
Ans. Dependable.

Q: Your personal mantra in five words or less?
Ans. Stay calm, keep moving forward.

Q: Fine Dining or Street Food?
Ans. Street Food: Simple, authentic and full of flavour.

Q: What's been on your mind lately outside of work hours?
Ans: Building healthier habits, spending quality time with my family, and focusing on personal growth- taking it one deliberate step at a time.

Q: If your current phase of life had a book title, what would it be?
Ans: Building with Purpose.

Q: What is a small thing that instantly makes your day better?
Ans: Stepping outside for a quick walk. A bit of fresh air instantly refreshes my perspective.

Q: What kind of professional do you actively promise yourself never to become?
Ans: I never want to become someone who stops learning, avoids personal responsibility, or becomes entirely comfortable with the status quo.

Q: When you first heard about PRAGATI, what did you really think?
Ans: I felt excited and curious. I saw PRAGATI as an opportunity to learn, challenge myself, and grow both professionally and personally.

Q: Did you ever have a "what have I gotten myself into?" moment?
Ans: Yes, especially at the beginning, when I realized the expectations of the PRAGATI journey. It quickly turned into motivation to learn, adapt, and make the most of the opportunity.

Q: Tell me about a day that completely drained you and what it taught you.
Ans: One particularly hectic day taught me that staying calm, prioritizing effectively, and staying focused on the goal can turn pressure into productive outcomes.

Q: What is a small thing that instantly makes your day better?
Ans: One particularly hectic day taught me that staying calm, prioritizing effectively, and staying focused on the goal can turn pressure into productive outcomes.

Q: What's one moment where you surprised yourself?
Ans: Taking ownership of a challenging situation outside my comfort zone and delivering with confidence surprised me.

ELECTRO KIDS - NURTURING YOUNG MINDS

CELEBRATING THE CREATIVE SPARKS OF OUR EXTENDED FAMILY

At Electrosteel, the creative energy and unique talents of our employees' children bring immense life to our family. We are proud to introduce Electro Kids, a dedicated new section that celebrates the artistic and cultural expressions of our multi-talented younger generation. From beautiful sketches and colourful paintings to graceful traditional dance, this platform honours the imagination and passion of these young achievers. By spotlighting their achievements, Electrosteel continues to nurture creativity, build community pride, and support the next generation as they grow to shape a brighter, more vibrant tomorrow.

YUVANKUR 2026 CELEBRATES YOUNG TALENT AND COMMUNITY PRIDE

Electrosteel Srikalahasthi Works successfully hosted Yuvankur, a sports and cultural programme for the children of staff, workmen, and contract labourers. The participants showcased their talents across chess, carrom, singing, and dancing, earning exciting rewards for their achievements. Supported enthusiastically by families, the event built confidence in these young minds while fostering joy and deep corporate pride across generations.

MAYANK MANNA SHINES IN NEET 2026

Haldia Works proudly celebrated Master Mayank Manna, son of Mr. Manas Kumar Manna, Senior Manager - CCP Operation, for his exceptional performance in the NEET 2026 examination. Mayank achieved a brilliant 99.77 percentile, securing an All India Rank of 4595 and a General Rank of 2137. He now plans to pursue his medical education at the prestigious AIIMS Guwahati. The entire Electrosteel family extends its heartiest congratulations to Mayank and his family on this monumental achievement.

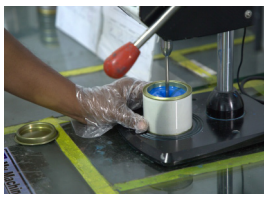

NEW BEGINNINGS - EXPANDING DREAMS, ONE STEP AT A TIME

UDAAN: FROM IDEAS TO ACTION

Introduced in March 2026 to encourage future-ready innovation, the Udaan initiative is successfully transitioning from conversations into tangible corporate growth. While Ductile Iron Pipes and Fittings remain the core foundation of Electrosteel, we are expanding our horizons into high-impact sectors including Valves, Industrial Paints, Rubber products, and exploring other sectors.

The diversification is already delivering real-world momentum highlighted by our first Valve order dispatch just five days after IFAT India 2026, and first Paint trial order underway. Udaan isn't about leaving our industrial roots behind; it is about building upon our seven-decade engineering heritage to shape a diversified, resilient future.

FIRST ELECTROSTEEL VALVE CONSIGNMENT SUCCESSFULLY DELIVERED

Electrosteel marked an important milestone by successfully delivering its very first valve consignment. The product was dispatched with precision, packed in a box painted in Electrosteel's signature blue, and featured a custom-painted water droplet and recycling symbol at its centre. This thoughtful packaging reinforces our core commitment to making responsible choices at every stage of production. Having safely reached its destination, this first delivery marks the successful beginning of a new journey toward providing advanced valve solutions for modern water infrastructure.

ELECTROSTEEL LAUNCHES "HR BAAT-CHEET DROPBOX" INITIATIVE

To strengthen open internal communication, Electrosteel has introduced the "HR Baat-Cheet Dropbox", a direct communication line between employees and Human Resources. This digital portal allows team members to securely submit questions or clarifications regarding HR policies, workplace related, employee engagement related, administrative facility related and training programme related concerns. By scanning a simple QR code, employees can easily submit their queries through a secure Google Form with a commitment to confidentiality of privacy. This initiative highlights Electrosteel's focus on transparency, active listening, and workplace well-being.
