

ENERGY POLICY

SriKalahasthi Pipes Ltd. is committed to optimally utilize various forms of energy (fuel & power) to ensure conservation of energy resources.

To achieve the above objective, we strive to:

- ◆ Reduce specific energy consumption by identifying areas of energy saving potential in various departments.
- ◆ Set energy consumption targets and monitor continuously
- ◆ Train all employees to bring awareness on fuel and power wastages and to reduce wastages.
- ◆ Implement innovative ideas and upgradation of the process and equipment.
